Commerce College, Hungund-587118

The college has adopted a policy of restricted entry of Bikes, Scooters and other vehicles. All the students and faculties of the institution are informed to abide by the rules of automobile restriction. At the entrance gate, security guards control the entry of outside vehicles and public. The institution encourages the staff and students to use the bicycles instead of vehicles for safety, security, fuel conservation and encouraging pollution free environment.

## 2. Ban on single-use plastic

Environmental issues are nowadays becoming a global and local concern. It is also being found that, college campuses are often the source of enormous amount of plastic pollution. With the goal to make our college a plastic free campus, all faculty, staff members, vendors and students are being restricted to the use of plastic bags, cups and bottles, straws, thermocol in the campus. Awareness of ban on single-use plastic is being created with display boards, orientation programs, awareness campaigns. 'World Environment Day' has been celebrating on June 5<sup>th</sup> every year to create awareness of environmental challenges.

### 3. Growing College Garden and Landscaping

Campus gardens are becoming more popular at universities and colleges everywhere. Students can come together to learn different species of herbs, shrubs and trees planted in the garden. The garden creates awareness about bio diversity and it motivates the students to learn about the beauty of nature and its importance in our lives.

Every year in the month of June new plant saplings are being planted in the garden and college premises. Till date, 35 different species of total 169 new plants/trees are planted in the college which includes 11 varieties of palms, 24 varieties of ornamental and medicinal plants.

34.	Tabernaemontana Divarica	Crape jasmine	Garden	02
35.	Allamanda Cathartica	Yellow allamanda	Garden	04
Total plants planted in the college premises				169

**5. Rejuvenation of College Garden**

**6. Landscaping with trees**

## 7. Pedestrian friendly pathways

The college has made restrictions to entry of outside vehicles into the campus. Provision for the Vehicle parking is made available at the entrance gate. Pedestrian friendly pathways are made for the comfortable walking of the students, staff and others.

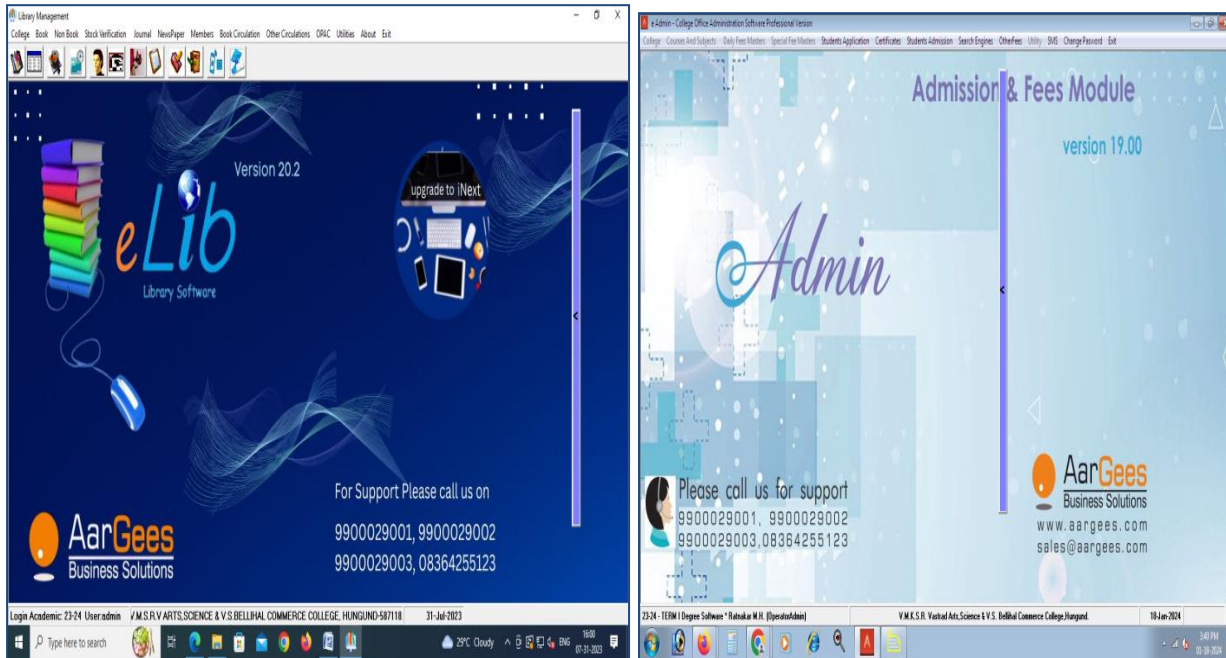

## 8. Choosing electronic medium over papers

The world has adopted digital communication, learning and other applications. The college library is equipped with online versions of books & journals through its subscription to 'N-list online journals package'. Student and faculty use e-books and e-journals in addition to the traditional books & periodicals in the Library. Office Management Software and Library Automation Software's are being used at the Office and Library respectively; this practice greatly reduced the use of papers in the college.

## Library Automation Software and Office Management Software

### 9. Digital Movement Register

The college library has introduced register of users' attendance on the computer system through a digital movement register. In this system, the users can register their attendance by scanning their id cards in the scanner placed on the library counter. Then automatically, attendance of students is saved in a computer system. The system saves a lot of papers so, it is eco-friendly.

## 10. Weeding out of termite affected books in the Library

Weed-out of books in the library is an age-old tradition which keeps the collection fresh, clean, relevant and in good condition. Some old books in the library are damaged by termites some are not being used for long time are weeded out on 13/01/2023.

## 11. Solid waste management

The Solid waste generated in the campus is segregated as bio degradable and non-degradable and handed over to Hungund Municipal Corporation as a part of 'Swachh Bharat Abhiyan' and 'Dry Leaf Compost Bin' is being used in garden for preparing organic manure from the garden leaves.

## 12. Drip irrigation system in the College-Garden

Drip Irrigation System is introduced in the garden to reduce water wastage. Entire distribution system is well supervised by the college administration to ensure that there are no leakages and wastages of water through Leakages in the pipelines.
